For some, the Audi TT is the true home of the 1.8 20V turbo. Every state of tune of the venerable 20V turbo was available in the TT, but it was the only car in Volkswagen Group to get the most powerful version of the engine. The 240PS (yes, that's 133PS per litre!)

Wrong wrong wrong wrong wrong. As far as I'm aware, Audi didn't put the 210 engine into the TT after trying it with the S3. Only the 225. Also, there is no standard 240hp TT engine. Again, they don't remap to 260, that is the old wild claim from Revo.

The American edition of the revelatory Swedish book Spotify Untold, the basis of the new Netflix Original series slated for 2022! "Two excellent Swedish journalists recount the historic rise of the company that changed modern music not just as a riveting business tale, but as a lesson in tech geopolitics. Spotify's Daniel Ek shows why Silicon Valley does not always win."—David Kirkpatrick, New York Times bestselling author of The Facebook Effect Steve Jobs tried to stop this moment from ever happening. Google and Microsoft made bids to preempt it. The music industry blocked it time and again. Yet, on a summer's eve in 2011, the whiz kid CEO of a Swedish start-up celebrated his company's US launch. In the midst of the Apple-Android tech war and a music label crusade against piracy and illegal downloading, Spotify withdrew the battle lines, sent shockwaves through Silicon Valley, and got the hardline executives at Universal, Sony, and Warner to sign with its "free-mium" platform. In The Spotify Play, now adapted into an upcoming Netflix Original series, Swedish investigative tech journalists Sven Carlsson and Jonas Leijonhufvud, who covered the company from its inception, draw upon hundreds of interviews, previously untapped sources, and in-depth reporting on figures like Mark Zuckerberg, Sean Parker, Steve Jobs, Taylor Swift, Jay-Z, Pony Ma Huateng, and Jimmy Iovine. They have captured the riveting David vs. Goliath story of a

Out of Control chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

Leading international artists and art educators consider the challenges of art education in today's dramatically changed art world. The last explosive change in art education came nearly a century ago, when the German Bauhaus was formed. Today, dramatic changes in the art world--its increasing professionalization, the pervasive power of the art market, and fundamental shifts in art-making itself in our post-Duchampian era--combined with a revolution in information technology, raise fundamental questions about the education of today's artists. Art School (Propositions for the 21st Century) brings together more than thirty leading international artists and art educators to reconsider the practices of art education in academic, practical, ethical, and philosophical terms. The essays in the book range over continents, histories, traditions, experiments, and fantasies of education. Accompanying the essays are conversations with such prominent artist/educators as John Baldessari, Michael Craig-Martin, Hans Haacke, and Marina Abramovic, as well as questionnaire responses from a dozen important

artists--among them Mike Kelley, Ann Hamilton, Guillermo Kuitca, and Shirin Neshat--about their own experiences as students. A fascinating analysis of the architecture of major historical art schools throughout the world looks at the relationship of the principles of their designs to the principles of the pedagogy practiced within their halls. And throughout the volume, attention is paid to new initiatives and proposals about what an art school can and should be in the twenty-first century--and what it shouldn't be. No other book on the subject covers more of the questions concerning art education today or offers more insight into the pressures, challenges, risks, and opportunities for artists and art educators in the years ahead. Contributors Marina Abramovic, Dennis Adams, John Baldessari, Ute Meta Bauer, Daniel Birnbaum, Saskia Bos, Tania Bruguera, Luis Camnitzer, Michael Craig-Martin, Thierry de Duve, Clémentine Deliss, Charles Esche, Liam Gillick, Boris Groys, Hans Haacke, Ann Lauterbach, Ken Lum, Steven Henry Madoff, Brendan D. The rise and fall of the man who cracked Prohibition to become one of the world's richest criminal masterminds—and helped inspire *The Great Gatsby*. Love, murder, political intrigue, mountains of cash, and rivers of bourbon...The tale of George Remus is a grand spectacle and a lens into the dark heart of Prohibition. Yes, Congress gave teeth to Prohibition in October, 1919, but the law didn't stop George Remus from amassing a fortune that would be worth billions of dollars

today. As one Jazz Age journalist put it, “Remus was to bootlegging what Rockefeller was to oil.” Author Bob Batchelor breathes life into the largest bootlegging operation in America—greater than that of Al Capone—and a man considered the best criminal defense lawyer of his era. Remus bought an empire of distilleries on Kentucky’s “Bourbon Trail” and used his other profession, as a pharmacist, to profit off legal loopholes. He spent millions bribing officials in the Harding Administration, and he created a roaring lifestyle that epitomized the Jazz Age over which he ruled. That is, before he came crashing down in one of the most sensational murder cases in American history: a cheating wife, the G-man who seduced her and put Remus in jail, and the plunder of a Bourbon Empire. Remus murdered his wife in cold-blood and then shocked a nation winning his freedom based on a condition he invented—temporary maniacal insanity. “The fantastic story of George Remus makes the rest of the “Roaring Twenties” look like the “Boring Twenties” in comparison.” —David Pietrusza, author of *1920: The Year of the Six Presidents*
