If your BMW check engine light (or service engine soon light) stays on, it means that the Onboard Diagnostic System (also known as Digital Motor Electronics DME) has detected a problem with the emission system, engine, or transmission. BMW check engine light may come on due to something as simple as a loose gas cap, but it can also indicate an expensive engine or transmission problem.

Troubleshooting BMW Check Engine Light & Service Engine ...

The Service Engine Light on your BMW 3 Series is monitored and controlled by the Engine Control Module or ECM. It keeps track of all routine maintenance and servicing requirements of your BMW. When this light illuminates, you should have your BMW serviced before attempting to manually reset the light. The best way to reset it is to use a computerized scan tool obtained from your local auto parts retailer.
