Boeing 777 200 and Boeing 777 300 Specs. The Boeing 777 family of aircraft currently has two main passenger versions plus a Boeing 777 Freighter version flying. The two main passenger versions are the Boeing 777 200 and the Boeing 777 300 variants. Although their air-frame measurements such as wingspan, wheel track and tailplane are the same, the major difference is the fuselage length.

For practical purposes, the maximum lower-deck load on a 777F is around 50 tons. The maximum total payload is around 104 tons. You can load all 104 tons on the main-deck, which obviously would leave the lower-deck holds empty. Conversely, if you load 50 tons downstairs you're limited to around 54 tons upstairs.

Maximum tons of cargo for a B787-9 and B777F? - Airliners.net

Seat Map of Boeing 777-300ER (77W) On this page, you will find seat map information on the Boeing 777-300ER (77W) aircraft. For further details on seats, please go to the in-flight service page and select the class and aircraft type.
