A Number is a 2002 play by the English playwright Caryl Churchill which addresses the subject of human cloning and identity, especially nature versus nurture.The story, set in the near future, is structured around the conflict between a father (Salter) and his sons (Bernard 1, Bernard 2, and Michael Black) – two of whom are clones of the first one.

A Number - Wikipedia

"A Number confirms Churchill's status as the first dramatist of the 21st century. On the face of it, it is human cloning... Like all Churchill's best plays, A Number deals with both the essentials and the extremities of human experience... The questions this brilliant, harrowing play asks are almost unanswerable, which is why they must be asked."

Caryl Churchill's play "A Number" is about the ethics of human cloning – at least on the surface. I say "on the surface" because to me as a philosopher, the questions she asks strike me as working at a deeper existential level. The play leaves out the debate we typically associate with cloning. Instead, Churchill takes human cloning as a framework for philosophical considerations.

**A Number by Caryl Churchill - a philosophical analysis**

Caryl Churchill's A Number is a play that explores the issue of human cloning through the relationships between a father and his three sons. A tight two-hander taking place in a not-too-far off future, Churchill's play is a philosophical investigation into free will and the question of nature versus nurture.
