Diagnostics, or fault finding, is a fundamental part of an automotive technician's work, and as automotive systems become increasingly complex there is a greater need for good diagnostic skills. Advanced Automotive Fault Diagnosis is the only book to treat automotive diagnostics as a science rather than a check-list procedure. Each chapter includes basic principles and examples of a vehicle system followed by the appropriate diagnostic techniques, complete with useful diagrams, flow charts, case studies and self-assessment questions. The book will help new students develop diagnostic skills and help experienced technicians improve even further. This new edition is fully updated to the latest technological developments. Two new chapters have been added – On-board diagnostics and Oscilloscope diagnostics – and the coverage has been matched to the latest curricula of motor vehicle qualifications, including: IMI and C&G Technical Certificates and NVQs; Level 4 diagnostic units; BTEC National and Higher National qualifications from Edexcel; International Motor Vehicle qualifications such as C&G 3905; and ASE certification in the USA.

This book offers a comprehensive look at an industry that plays a growing role in motor vehicle production in the United States.

What if Kennedy survived Dallas? President John F. Kennedy has lived through the ambush in Dealey Plaza. America holds its collective breath, seeing its president nearly executed in broad daylight. But as the country marches on, the office of the President finds itself under a much more insidious type of fire. Political scandal, an endless war, and a country coming apart at the seams take the 1960's in a terrifying new direction, and both John and his attorney-general brother, Bobby, struggle to stay ahead of their enemies, political and otherwise, and steer America toward a greater future. Bryce Zabel is a master of the cover-up and the conspiracy, creating the Emmy-award winning series DARK SKIES. SURROUNDED BY ENEMIES is the first novel in the new Breakpoint series—each book exploring seminal moments in popular history and taking readers on a journey into a mirror world where events are both unexpected yet startlingly believable. This savvy, fiercely intelligent novel, perfect for readers of Harry Turtledove, brings together elements of political thriller and page-turning history, enthraling readers with a sharply written take on the America that was, and the America that could have been. WINNER OF THE 2013 SIDEWISE AWARD FOR ALTERNATE HISTORY "I have some experience with shattered timelines and altered realities but this one kept me guessing every page."—Damon Lindelof, writer/producer of LOST, STAR TREK INTO DARKNESS "Plausible development, building from what we know about what really did go on, and a whacking good story...SURROUNDED BY ENEMIES delivers on both, big-time. So hold on to your hats, folks. You're in for quite a ride."—Harry Turtledove, alternative history author, HOW FEW REMAIN
