Management Strategies in Athletic Training, Fifth Edition, prepares students and athletic trainers to address the many administrative and managerial challenges they will face in an increasingly complex and changing health care environment.

Using a case study approach to teach students theories of organization and administration and to apply them to practical situations in the profession of athletic training, this fourth edition includes sample administration forms, review questions and an index.

Clinical Athletic Training by Jeff Konin, MEd, ATC, MPT, has been written to provide the athletic trainer with a well-rounded understanding of the non-traditional athletic training setting. The primary goal of this book is to prepare athletic trainers for clinical settings with relevant and practical information. The textbook has been carefully planned to meet the needs of today's student, while still serving as an excellent reference for those currently certified and practicing in clinical settings. Here is what David Perrin, PhD, ATC of the University of Virginia says in the foreword of Clinical Athletic Training, edited by Jeff Konin, MEd, ATC, MPT plus 19 outstanding contributors. As these powerful words describe, this book will be an asset to all athletic training students. Special Features Content delivered from a practical and realistic viewpoint. Scientifically based, yet practically delivered. Addresses in great detail the role of the clinical athletic trainer. Delivers pertinent information in the areas of management, fiscal planning, and communication. Thoroughly explains the current health care delivery system and the roles and responsibilities of other providers. Forewords by James R. Andrews, MD, and David H. Perrin, PhD, ATC.

Administrative Topics in Athletic Training: Concepts to Practice is a dynamic text that addresses important administrative issues and procedures as well as fundamental concepts, strategies, and techniques related to the management of all aspects of an athletic training health care delivery system. Unlike traditional organization and administration textbooks, this text delivers a multitude of content focused on classical management theory. Drs. Gary Harrelson, Greg Gardner, and Andrew Winterstein have presented a balance of theory and application in Administrative Topics in Athletic Training: Concepts to Practice, including case studies and scenarios in each chapter to help students realize immediate application of the content. Content areas covered include: • Leadership and management theory and concepts • Risk management and legal issues • Finance • Human Resources • Ethical issues • Athletic Training Administration • Medical records and documentation • Insurance and reimbursement • Organizational skills • Improving organizational performance • Employment issues • Case studies Unique benefits and features include: • Extensive discussion of management theory • Chapters on ethics and risk management • Strong focus on professional development issues • Presentation of unique reimbursement models • Discussion of issues in the educational setting With its valuable information, insightful theoretical concepts, helpful models, and practical case studies, Administrative Topics in Athletic Training: Concepts to Practice is a valuable text for any undergraduate, entry-level, or graduate education program in athletic training.

Part one of a two-part series dedicated to Rehabilitation, this issue explores rehab from the perspective of the Athletic Trainer and Physical Trainer. Guest Editor Dr. Jeff Konin of the University of South Florida's Department of Orthopedic Surgery and his team of contributors discuss key subjects, such as the rehabilitation referral, return to play criteria, strength and conditioning, the future of rehab, concussion, and of course, rehabilitation of specific areas of the body including the shoulder, elbow, knee, hip, and more.

Management Strategies in Athletic Training, Fourth Edition, helps current and future athletic trainers deal creatively with the management challenges they will face on the job. Like the previous editions, the fourth edition uses a unique case-study approach in teaching students the theories of organization and administration and their applications to real-world situations in the profession of athletic training. The text, part of Human Kinetics' Athletic Training Education Series, is an excellent resource for building comprehensive knowledge of management theory as well as the problem-solving skills to put it to practical use. The book's organization strategies can also be applied beyond athletic training to a variety of fields related to sports medicine, making it a valuable resource for any sports medicine professional. Management Strategies in Athletic Training, Fourth Edition, has been significantly improved to align with the Health Care Administration portion of the National Athletic Trainers' Association (NATA) Role Delineation Study. With extensive updates and new information, the fourth edition emphasizes the practice of evidence-based medicine and offers 18 new sections of material that include the following: •Health care financial management •injury surveillance systems •Advances in patient charting •Cultural awareness •Marketing a sports medicine practice •OSHA requirements for health care facilities Designed to encourage critical thinking, the fourth edition of Management Strategies in Athletic Training opens and closes each chapter with realistic and fascinating case studies presenting real-world dilemmas faced by athletic trainers. A series of questions at the end of these scenarios challenge students to analyze and apply the principles in the chapters to solve the hypothetical situations and ultimately prepare them for the kinds of problems they will face from day to day as professionals. To support learning, the text includes tools such as chapter objectives, key terms, and review statements as well as sample administrative forms that readers can both study and adapt to their own work situations. Special elements and appendices provide direction for deeper study by referring students to Internet resources, other Athletic Training Education Series texts, sample forms for analysis of athletic training programs, and material on regulations and ethics in athletic training. In addition, the fourth edition covers new material that students will find helpful as they embark on their athletic training careers, such as compensation, tips for finding a job, and negotiating skills for accepting a job. For instructors, an ancillary package consisting of an instructor guide, test bank, and new image bank will aid in course development. Loaded with additional case studies, course projects, chapter worksheets, and a sample course syllabus, these materials can be used for organizing classes, testing students' knowledge, and creating exciting learning experiences.
