Improvements made to the second Canadian edition have been focused on satisfying the differing needs and abilities of students. This edition has been enhanced with new pedagogical features designed to help students approach the material from different perspectives. This new edition also boasts enhanced coverage of the International Financial Reporting Standards (IFRS) and the Accounting Standards for Private Enterprise (ASPE), clearly distinguishing between these two approaches throughout the text.

Financial Accounting provides a comprehensive coverage to course requirements of students appearing in the paper Financial Accounting at BCom, BCom (Hons) examinations of different Indian universities and Foundation Examination (NS) of the Institute of Company Secretaries of India. The book is divided into four sections: Section I explains the fundamental principles necessary for understanding the subject. It covers the entire accounting cycle—from recording of financial transactions to the preparation of final accounts. Section II deals with accounting problems related to certain specific types of business transactions. Section III deals with partnership accounts. Section IV provides suggested answers to recent examinations' questions.
