This open access book belongs to the Maritime Business and Economic History strand of the Palgrave Studies in Maritime Economics book series. This volume highlights the contribution of the shipping industry to the transformations in business and society of the postwar era. Shipping was both an example and an engine of globalization and structural change. In turn, the industry experienced and pioneered, mirrored and enabled key developments that led to the present-day globalized economy. Contributions address issues such as the macro-level shift of shipping's centre of gravity from Europe to Asia, the political and legal frameworks within which it developed, the strategies and performance of both successful and unsuccessful firms, and the links between the shipping industry and the wider economy and society. Without shipping and its ability to forge connections and networks of a global reach, the modern world would look very different. By bringing together scholars from various disciplinary and national backgrounds, this book advances our understanding of the linkages that bind economies and societies together.

The development of meaningful relationships, where every member carries a significant sense of belonging, is central to what it means to be the church. So why do many Christians feel disappointed and disillusioned with their efforts to experience authentic community? Despite the best efforts of pastors, small group leaders, and faithful lay persons, church too often is a place of loneliness rather than connection. In this revised and updated version of his best-selling book, Randy Frazee shows us how church can be so much...better. More intimate and alive. The answer may seem radical today, but it was a central component of life in the early church. First-century Christians knew what it meant to live in vital community with one another, relating with a depth and commitment that made "the body of Christ" a perfect metaphor for the church. What would it take to reclaim that kind of love, joy, support, and dynamic spiritual growth? Read this book and find out.

Foreword Review's 17th Annual INDIEFAB Book of the Year Finalist (Religion) 12th Annual Outreach Resource of the Year (Culture) 2015 Christianity Today Award of Merit (Christian Living) 2014 Leadership Journal Best Books for Church Leaders (The Leader's Outer Life) 2014 Book of the Year from Byron Berger, Hearts and Minds Bookstore Is it possible to know the world and still love the world? Of all the questions we ask about our calling, this is the most difficult. From marriages to international relations, the more we know, the harder it is to love. We become cynics or stoics, protecting our hearts from the implications of what we know. But what if the vision of vocation can be recovered—allowing us to step into the wounds of the world and for love's sake take up our responsibility for the way the world turns out? For decades Steve Garber has come alongside a wide range of people as they seek to make sense of the world and their lives. With him we meet leaders from the Tiananmen Square protest who want a good reason to still care about China. We also meet with many ordinary people in ordinary places who long for their lives to matter: Jonathan who learned he would rather build houses than study history Todd and Maria who adopted creative schedules so they could parent better and practice medicine D.J. who helped Congress move into the Internet Age Robin who spends her life on behalf of urban justice Hans who makes hamburgers the way they are meant to be made Susan who built a home business of hand-printing stationery using a letterpress Santiago who works with majority-world nations in need of capital George who has given years to teaching students to learn things that matter most Claudius and Deirdre whose openhearted home has always been a place for people Dan who loves Wyoming, the place, its people and its cows Vocation is when we come to know the world in all its joy and pain and still love it. Vocation is following our calling to seek the welfare of the world we live in. And in helping the world to flourish, strangely, mysteriously, we find that we flourish too. Garber offers a book for everyone everywhere—for students, for parents, for those in the arts, in the academy, in public service, in the trades and in commerce—for all who want to discover the virtue of vocation.
