Banking and Capital Markets is a practical guide to a field that has seen a rapid rate of change in recent years.

Unlike other international management texts that tend to be U.S.-centric, Ahlstrom and Bruton's INTERNATIONAL MANAGEMENT, International Edition presents core theories and models from a global perspective. By familiarizing yourself with an array of real-world, concrete models of the many educational, sociological, legal-political, and cultural differences you'll undoubtedly face during a career in international business, you'll be prepared to work in an international firm anywhere in the world.

"How do I know I covered all the requirements? Where do I begin? When should I stop? Did I miss something that will result in unpleasant surprises down the road?" If you are a Business Analyst, these questions will certainly mean something to you. You've probably asked yourself these questions at one point or another when you were assigned your early requirements development tasks.In this book, I introduce a requirements development roadmap that will guide you from start to finish. It is a plan carefully prepared and organized around consecutive stations. At each station, I tell you:1. The target objective, and why you need to think about that particular objective at that specific point in time2. Which elicitation techniques will best serve the objective, and which questions to ask in order to capture the information you need3. Which analysis tools to apply in order to analyze the information from different angles4. How to document the output of the exercise that you just performed

Electrotechnology Practice is a practical text that accompanies Hampson/Hanssen’s theoretical Electrical Trade Principles. It covers essential units of competencies in the two key qualifications in the UEE Electrotechnology Training Package: - Certificate II in Electrotechnology (Career Start) - Certificate III in Electrotechnology Electrician Aligned with the latest Australian and New Zealand standards, the text references the Wiring Rules (AS/NZS 3000:2018) and follows the uniform structure and system of delivery as recommended by the nationally accredited vocational education and training authorities. More than 1000 illustrations convey to the learner various concepts and real-world aspects of electrical practices, a range of fully worked examples and review questions support student learning, while assessment-style worksheets support the volume of assessment. Electrotechnology Practice has strong coverage of the electives for Cert II and Cert III, preparing students to eligibly sit for the Capstone Assessment or the Licenced Electrician’s Assessment (LEA), as a mandatory requirement to earn an Electrician’s Licence. Premium online teaching and learning tools are available on the MindTap platform.

Even mean girls have their story... Gia's started before she was in preschool with a choice between rape and her twin brother's life. She did what she thought was best, and lived with the consequences... and the secrets. The pain, psychological chaos and confusion proved to be dangerous and devastating.Compounding the trauma were the two dramatically different environments that Gia's divorced parents raised her in. Her mother, a talented pianist, had frequent mental breakdowns and a penchant for bad men. Her father, preoccupied with a life that didn't include room for her, left Gia to the tutelage of her grandmother's religious dogma, fueling her belief that she was bad. She hides the pain as best she can behind her music, ambition and rituals but the effects cannot be ignored. Gia became a mean girl... she hurt because she was hurting... she frightened others because she was frightened herself... she humiliated girls because she had been humiliated. Gia's Secrets, the first in a three part series, is the beginning of her story and it needs to be heard...
