how to use product features effectively. As an author, your ultimate goal is comprehension—you want readers to easily be able to read, reference, and absorb information.

~~How to Write a Great User Manual in 12 Steps~~

Each and every instruction in an instruction manual should be clearly separated from any other instruction, for example, by a line or a number or (preferably) both. A table consisting of five to eight instructions, each separated from each other, is ideal. In the first column the number (1., 2., 3. and so on) can find its rightful place.

~~Writing an Instruction Manual: Some Important Basic Principles~~

Being wordy just to add content and to make the manual longer is never recommended. If a procedure can be answered in just a few sentences then it is best to leave it that way. Be brief by getting to the point and answering all important items that need to be addressed. State the details, but make every word count.
