Winner of the 2014 Guild of Food Writers Award for Cookery Book of the Year. James Morton was surely the people's favourite to win 2012's Great British Bake Off series - with his Fairisle jumpers and eccentric showstoppers, this soft-spoken Scottish medical student won the viewers' hearts if not the trophy. James's real passion is bread-making. He is fascinated by the science of it, the taste of it, the making of it. And in Brilliant Bread he communicates that passion to everyone, demystifying the often daunting process of "proper" bread making. James uses supermarket flour and instant yeast - you can save money by making your own bread. You don't even have to knead! It just takes a bit of patience and

a few simple techniques. Using step by step photos, James guides the reader through the how-to of dough making and shaping, with recipes ranging from basic loaves through flatbreads, sourdoughs, sweet doughs, buns, doughnuts, focaccia and pretzels. Inspiring and simple to follow, with James's no-nonsense advice and tips, this book will mean you never buy another sliced white loaf again.

Agnes and Honey have always been best friends, but they haven't always been so different. Agnes loves being a Believer. She knows the rules at the Mount Blessing religious commune are there to make her a better person. Honey hates Mount Blessing and the

control Emmanuel, their leader, has over her life. The only bright spot is the butterfly garden she's helping to build, and the journal of butterflies that she keeps. When Agnes's grandmother makes an unexpected visit to the commune, she discovers a violent secret that the Believers are desperate to keep quiet. And when Agnes's little brother is seriously injured and Emmanuel refuses to send him to a hospital, Nana Pete takes the three children and escapes the commune. Their journey begins an exploration of faith, friendship, religion and family for the two girls, as Agnes clings to her familiar faith while Honey desperately wants a new future.

In this book, Dr. Li and his author team plan to emphasize why mouse models are useful in vivo systems for understanding disease mechanisms and developing therapeutic strategies in blood cancers. The authors do not intend to cover all types of blood cancers; instead, they will focus on some major ones such as leukemias and lymphomas. However, the authors will try to cover as much as they can the

cancer types and point out that many blood cancers need to be studied in mouse disease models although they are still not available at present. A major focus in the book will be to show what we can or cannot learn from mouse disease models and to also show the critical contributions of mouse models in therapeutic drug development.

Alice Fulton, the judge for the 1998 Walt Whitman Award, calls *Once I Gazed at You in Wonder* “quite simply, the most endearing book I’ve read in some time.” Readers of this audacious and, yes, endearing collection will agree. Jan Heller Levi has said that her poems are not confessions but conversations. Here,

then, are her conversations with the world. What sets Levi apart, however, is that she lets the world answer back. Difficult fathers, ineffectual mothers are forgiven; ex-lovers are blessed. Sophisticated but never jaded, this poet looks in wonder beyond the self: a cup of coffee in one of New York's ubiquitous Greek diners can launch Levi into a meditation on truth versus compassion; a suite of elegies for her mother takes us from a hospital corridor to the studio of a television talk show where God is the guest; a poetry reading in which she shares the stage with a folk singer illustrates Levi's gift for illuminating the absurd textures of late-twentieth-century existence. Don't you have any happy poems? he wondered.

Don't you have any cancer songs? I asked. With the narrative drive of great fiction, the consolations of philosophy, and the rigor of art, *Once I Gazed at You in Wonder* marks the entrance of a much-needed new voice and vision in the conversation that is American poetry.
