Challenges assumptions about Italian women writers under fascism. In fascist Italy between the wars, a woman was generally an exemplary wife and mother or else. The "or else", mostly forgotten or overlooked in accounts of femininity under fascism, is what concerns Robin Pickering-Iazzi. Reading works by women of the period, Pickering-Iazzi shows how they refuted stereotypes that were imposed on them by the fascist regime and continue to be accepted and perpetuated into our day. The writers Pickering-Iazzi considers comprise both the popular and the critically acclaimed, including the illustrious Grazia Deledda (winner of the Nobel Prize for Literature in 1926), Ada Negri, Sibilla Aleramo, Alba De Cespedes, Paola Drigo, Maria Goretti, and Antonia Pozzi. She situates their work -- short stories, romance novels, autobiographies, neorealist novels, poetry, and avant-garde writings -- not only within the context of fascist discourse but also within that of intellectuals and artists who did not keep to the fascist line. In each case, Pickering-Iazzi examines specific issues of gender and genre -- notions of women and the nation, rural life, the metropolis, technology, consumer culture, and modern forms of femininity and masculinity.

Il nome della Drigo resta legato soprattutto al romanzo "Maria Zef" nel quale l'impostazione naturalistica temperata da un sentimento di pietà triste e amara, conduce con grande efficacia l'ineluttabile svolgersi di una vicenda cupa che si conclude in tragedia. Maria infatti, orfana fin da bambina, viene sedotta dallo zio e finisce per ucciderlo quando si rende conto che anche la sorella minore Rosa sta per subire la sua stessa sorte. Il tutto vede sullo sfondo un paesaggio carnico di grande desolazione e particolarmente aspro. Maria Zef resta uno dei romanzi più sobri e potenti della narrativa femminile italiana del novecento e al suo apparire il tema svolto (l'incesto) in ambiente di grave disagio sociale non mancò di destare un certo scalpore. Entries for authors, works, themes, and other topics trace the feminist response to Italian literature from the Middle Ages to the present.

Providing the most complete record possible of texts by Italian writers active after 1900, this annotated bibliography covers over 4,800 distinct editions of writings by some 1,700 Italian authors. Many entries are accompanied by useful notes that provide information on the authors, works, translators, and the reception of the translations. This book includes the works of Pirandello, Calvino, Eco, and more recently, Andrea Camilleri and Valerio Manfredi. Together with Robin Healey's *Italian Literature before 1900 in English Translation*, also published by University of Toronto Press in 2011, this volume makes comprehensive information on translations from Italian accessible for schools, libraries, and those interested in comparative literature.

Are minor languages the lifeblood of cherished local identities or just passports with restricted validity, serving no purpose in today's transnational, global world? Italy's north-eastern region of Friuli is a case in point: in this area, around half a million people speak Friulian, a Romance language of the Rhaeto-

Romance family, which is attested to in written texts since 1150 and acquired official minority language status in 1999. Geographically and politically off-centre, Friuli remained isolated for a long part of its history and developed a unique language that sustained a distinctive identity and culture. Starting from the nineteenth century, large-scale migration towards Northern Europe and the Americas brought Friulian into contact with other languages and contexts of use. *The Friulian Language: Identity, Migration, Culture* is the first comprehensive study in English of this little-known language to consider its history and the variety of its cultural manifestations from antiquity to the present day. The volume gathers together the work of ten contributors who are specialists in the fields of history (Fulvio Salimbeni), law (William Cisilino), linguistics (Paola Benincà, Franco Finco, Fabiana Fusco and Carla Marcato), literary studies (Rosa Mucignat and Rienzo Pellegrini), and migration (Javier P. Grossutti and Olga Zorzi Pugliese). The focus of the book is on Friulian, its varieties, its linguistic characteristics and its use in literature from fourteenth-century ballads to Pier Paolo Pasolini, and more recent poetry by Novella Cantarutti and others. Equal attention is given to the Friulians themselves, the social and political transformations of the region, and the experience of migration, in particular the case of high-skilled mosaic craftsmen from the Alpine foothills. Thanks to its multidisciplinary approach, the book sheds light on the questions of why Friulian has developed the way it has, what its significance as a minor language is, and how it can negotiate its relationship to other languages on a global scale.

This book brings to the surface the lines of experimentation and artistic renewal appearing after the exhaustion of Neorealism, mapping complex areas of interest such as the emergence of ethical concerns, the relationship between ideology and representati
