In the summer of 1967, nineteen-year-old Brenda Joyce Holland disappeared. She was a mountain girl who had come to Manteo to work in the outdoor drama The Lost Colony. Her body was found five days later, floating in the sound. This riveting narrative, built on unique access to the state investigative file and multiple interviews with insiders, searches for the truth of her unsolved murder. This island odyssey of discovery includes séances, a suicide and a supposed shallow grave. Journalist John Railey cuts through the myths and mistakes to finally arrive at the long-hidden truth of what happened to Brenda Holland that summer on Roanoke Island.

The North Carolina barrier islands, a 325-mile-long string of narrow sand islands that forms the coast of North Carolina, are one of the most beloved areas to live and visit in the United States. However, extensive barrier island segments and their associated wetlands are in jeopardy. In The Battle for North Carolina's Coast, four experts on coastal dynamics examine issues that threaten this national treasure. According to the authors, the North Carolina barrier islands are not permanent. Rather, they are highly mobile piles of sand that are impacted by sea-level rise and major storms and hurricanes. Our present development and management policies for these changing islands are in direct conflict with their natural dynamics. Revealing the urgency of the environmental and economic problems facing coastal North Carolina, this essential book offers a hopeful vision for the coast's future if we are willing to adapt to the barriers' ongoing and natural processes. This will require a radical change in our thinking about development and new approaches to the way we visit and use the coast. Ultimately, we cannot afford to lose these unique and valuable islands of opportunity. This book is an urgent call to protect our coastal resources and preserve our coastal economy.
