The Power of Events - Event Manager Blog

Abstract. Complex Event Processing (CEP) is a defined set of tools and techniques for analyzing and controlling the complex series of interrelated events that drive modern distributed information systems. This emerging technology helps IS and IT professionals understand what is happening within the system, quickly identify and solve problems, and more effectively utilize events for enhanced operation, performance, and security.

For 15 years, the power of the spoken word has been at the heart of Intelligence Squared's mission. Argument and debate, we believe, can move, persuade and create real change. Now, in these anxious and divided times, we held a special event that celebrated the positive, transformative force of another kind of spoken word - poetry.

The Power of Poetry - Intelligence Squared

We'll put a link on our website once the video of the event is available and add it to our YouTube channel next week. Please subscribe to our social media to get updates on future events. The language used to describe illness, treatments, prognosis and death in our world is steeped in history, culture, meaning and implications.

At this online event, we'll hear from An Dang, the 2019 PESA state winner, and the 2020 winner, Tierney Khan. They'll each present their powerful, prize-winning speeches (An's on Auslan; Tierney's on feminism) and then chat with Oscar Pearce, two-time PESA finalist. Both Tierney and An tackle questions of privilege and power in their speeches, engaging their audience in a rousing call to action.
