This work provides a comprehensive examination of the life and professional career of E.J Josey within the broader historical and

political landscape of the civil rights movement. In the era of Jim Crow, Josey rose to prominence in the library profession by challenging the American Library Association (ALA) to live up to its creed of

equality for all. This was not easy during the 1950s and 1960s, during segregation. Using interviews with Josey and his contemporaries, as well as several archival sources, library educator Renate

Chancellor analyzes Josey's leadership, particularly within modern day racial currents. During his professional career, spanning over fifty years (1952-2002), Josey worked as a librarian (1953-1966), an

administrator of library services (1966-1986), and as a professor of library science (1986-1995). He also served as President of the American Library Association and perhaps his most notable achievement, he

successfully drafted a resolution that prevented state library associations from discriminating against African American librarians. This essentially ended segregation in

the ALA. Josey's transformative leadership provides a model to tackle today's civil rights challenges both in and outside the library profession. This authoritative work copublished by the
