Annotation Briefly explains a filtration technique deemed viable and appropriate for drinking water where the source waters are low in turbidity and color. Describes applications and economic considerations, filter design, filter media, removing spent cake and handling residuals, operation, process control, monitoring, and auxiliary equipment and safety. First published in 1988. Annotation copyright by Book News, Inc., Portland, OR.

While volume 1 includes several introductory chapters and treats 42 families of flies in the Lower Diptera, volume 2 covers the remaining 64 families of flies that make up the Higher Diptera (or Cyclorrhapha). These include families of house flies, fruit flies, bot flies, flower flies and many other lesser-known groups. The text is accompanied by over 1660 line drawings and photographs.
