student exploration: Meiosis Flashcards | Quizlet

by Meredith Cole December 21, 2015. How does a cell compare to a city? Cells can be compared to the structures and institutions that keep a city running smoothly. The organelles in a cell work together to produce energy, manufacture proteins, and store genetic code. In the Cell Structure Gizmo, students learn the names and functions of cell organelles, identify organelles on a diagram of an animal or a plant cell and explain how plant cells are different from animal cells.
