The Vanquish is a legendary buggy from the Tamiya R/C back catalogue. It's now available again in the form of a re-issue assembly kit renamed the VQS. The kit receives tweaks to the original to bring it into the modern age of R/C. To save builders some work, it now comes with a pre-cut and pre-painted body!

First published in English in 2007 under title: The history of terrorism: from antiquity to al Qaeda.

Multiethnic Japan challenges the received view of Japanese society as ethnically homogeneous. Employing a wide array of arguments and evidence--historical and comparative, interviews and observations, high literature and popular culture--John Lie recasts modern Japan as a thoroughly multiethnic society. Lie casts light on a wide range of minority groups in modern Japanese society, including the Ainu, Burakumin (descendants of premodern outcasts), Chinese, Koreans, and Okinawans. In so doing, he depicts the trajectory of modern Japanese identity. Surprisingly, Lie argues that the belief in a monoethnic Japan is a post-World War II phenomenon, and he explores the formation of the monoethnic ideology. He also makes a general argument about the nature of national identity, delving into the mechanisms of social classification, signification, and identification.

"A Pulitzer Prize-winning reporter chronicles the 12 days leading up to the Japanese attack on Pearl Harbor, examining the miscommunications, clues, missteps and racist assumptions that may have been behind America's failure to safeguard against the tragedy,"--NoveList.

From Nausicaä to Sailor Moon, understanding girl heroines of manga and anime within otaku culture.

Solomon Northup was born a free black man. He was kidnapped, tortured, and sold into slavery. For 12 years, he was kept in bondage as a slave in Louisiana--Twelve Years a Slave is his moving and raw account of survival and life as a slave. This edition includes the full book as well as a comprehensive companion with historical notes, character overview, themes overview, and chapter summaries.

Chronicles the visual history of Road & Track magazine, including photographs, paintings, technical drawings, and cartoons.

The inside story behind the legendary automobile chronicles its development from drawing board to production vehicle, offering additional insight into the inner workings of the U.S. automotive industry. Reprint.

The Sengoku: Character Sheets book contains 41 illustrated and revised, two-sided character sheets, plus 11 additional blank (un-illustrated) character sheets. Features 41 illustrations of popular character profession templates -- samurai, bushi, priests, mystics, shinobi and more!

Conformist, mute and malleable? Andrews tackles head-on this absurd caricature of Japanese society in his fascinating history of its militant sub-cultures, radical societies and well-established traditions of dissent Following the March 2011 tsunami and Fukushima nuclear crisis, the media remarked with surprise on how thousands of demonstrators had flocked to the streets of Tokyo. But mass protest movements are nothing new in Japan and the post-war period experienced years of unrest and violence on both sides of the political spectrum: from demos to riots, strikes, campus occupations, faction infighting, assassinations and even international terrorism. This is the first comprehensive history in

# Where To Download Tamiya Vanquish Manual

English of political radicalism and counterculture in Japan, as well as the artistic developments during this turbulent time. It chronicles the major events and movements from 1945 to the new flowering of protests and civil dissent in the wake of Fukushima. Introducing readers to often ignored aspects of Japanese society, it explores the fascinating ideologies and personalities on the Right and the Left, including the student movement, militant groups and communes. While some elements parallel developments in Europe and America, much of Japan's radical recent past (and present) is unique and offers valuable lessons for understanding the context to the new waves of anti-government protests the nation is currently witnessing.

What's going on with the world of work? Will my job exist in five years' time? What's 'disruption' all about, and what does it mean for me? Jobs don't look like they used to. In this age of innovation, staying in control of your work life can feel overwhelmingly challenging. So what does it take to have - and be in control of - a successful and fulfilling career? Career Fear (and how to beat it) will help you answer this question for yourself. In this practical and reassuring book, you'll explore the perspective, mindset and uniquely human skills you need for a resilient and thriving career - without the fear. From understanding how the world of work is changing, to self-reflection and developing your critical thinking; author Somi Arian guides you through everything you need to be ready for an exciting and varied journey through life and work. Packed with clear, useful examples and inspiring case studies, Career Fear (and how to beat it) helps you beat that career fear and prepare to succeed - no matter where your career takes you.
