The Perception of the Environment: Essays on Livelihood ...

Perception explains the way people, organize, and interpret their sensory impressions in order to be in an environment. Peoples' behaviors are based on their perception of what reality is, and not in the reality itself. Factors that influence perception are factors in the perceiver, factors in the situation and factors in the target.

Environmental Essays / Bartleby

Environmental sustainability in a general sense is defined as the “ study of "how natural systems function, remain diverse, and produce everything necessary for the ecology to remain in balance" (Mason, 2014).

Environmental Sustainability Essay / Bartleby

Environmental perception must be acute in order to navigate through a crowd safely and efficiently. One of the influences of environmental perception is auditory perception. Things that a person hears in her surroundings are processed by the brain. Auditory perception processes both foreground and background sounds.
